#### **DETAILED ACTION**

## Information Disclosure Statement

- 1. The information disclosure statement (IDS) submitted on 10/1/2009 was filed after the mailing date of the Ex Parte Quayle Action on 9/21/2009. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.
- 2. The information disclosure statement (IDS) submitted on 10/19/2009 was filed after the mailing date of the Ex Parte Quayle Action on 9/21/2009. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

#### **Double Patenting**

3. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Art Unit: 1792

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

4. Claims 2, 4-7, 10-12, 15, 16 and 18-28 rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-11 and 13-16 of U.S. Patent No. 7,252,712 ('712) Although the conflicting claims are not identical, they are not patentably distinct from each other because both inventions teach similar process for obtaining a mono-crystalline gallium containing nitride with a supercritical solution formed by dissolving a gallium containing feedstock.

# Response to Arguments

5. Applicant's arguments filed 10/30/2009 have been fully considered but they are not persuasive.

Applicant's argument that the new power of attorney and statement under 37 CFR 3.73(b) renders the Terminal disclaimer filed on March 23, 2009 proper is noted but not found persuasive. The Terminal disclaimer is still disapproved because a new terminal disclaimer is also required.
